Message From the Dean

Dear Distinguished Guests, Colleagues, and Participants,

It is with great pleasure and enthusiasm that we welcome you to the 5th International Scientific Conference organized by the Al Kindy College of Medicine at the University of Baghdad.

This important event, which will take place on the **2nd and 3rd of May 2025**, is held under the theme, **"Education Quality and Research Excellence: Foundation of Accreditation and Sustainable Development."**

As we gather in Baghdad, a city known for its profound historical contributions to education and science, this conference provides us with a unique platform to reflect upon and discuss the future of medical education and research in the context of quality assurance and sustainable development. In an era where healthcare systems worldwide face numerous challenges, the role of education and research cannot be overstated. They form the foundation of the excellence required to achieve meaningful improvements in healthcare practices and outcomes.

This conference aims to foster collaboration between scholars, healthcare professionals, and educational leaders. Our focus on accreditation, research excellence, and sustainable development highlights the importance of building resilient educational frameworks that are capable of adapting to the ever-evolving needs of the medical field. By coming together, we can share knowledge, explore new approaches, and develop strategies that will positively impact both the future of medical education and healthcare systems worldwide.

We are grateful to all the speakers, researchers, participants, and sponsors who have contributed to making this event a reality. Your support and commitment to the advancement of medical education and research are truly appreciated.

Warm regards

Prof. Mohammed Shihab Al-Edanni
Dean, Al Kindy College of Medicine
University of Baghdad

Committees

Conference Chairman Prof. Dr. Mohammed Shihab Ahmed Al-Edanni
Conference Rapporteur Prof. Dr. Taghreed Khalil Mohammed Ali

Scientific Committee

Prof. Dr. Mohammed Jalal Hussein, Director
Prof. Dr. Mohammed Al-kurtas, Rapporteur
Prof. Dr. Yousif Abdul Rahim Abdul Ghafoor
Prof. Dr. Zaki Nouh Hassan
Prof. Dr. Thikra Najm Abdullah
Prof. Dr. Lujain Anwar Abboud
Prof. Dr. Haider Hadi Sadiq
Prof. Dr. Eklas Khaled Hamid
Prof. Dr. Qais Ahmed Hassan
Prof. Dr. Klawish Ahmed Abdullah
Prof. Dr. Suzan Amana Rattan
Prof. Dr. Laith Assi Khazal

Organizing Committee

Prof. Dr. Mohammed Asaad Ibrahim, Director
Prof Dr. Yassir Abbas Attia, Rapporteur
Asst.Prof Dr. Saad Yaday Nashtar
Asst.Prof Dr. Haider Hashim Abdul Razzaq
Asst.Prof Dr. Haider Sabah Hassan
Asst.Prof Dr. Muhannad Munther Abdul Ghani
Asst.Prof Dr. Raghad Imad Al-Din Naji
Asst.Prof Dr. Harith Mohammed Qanbar
Asst.Prof Dr. Aseel Samir Mohammed
Asst.Prof Dr. Sahar Jassim Abdul Jassim
Asst.Prof Dr. Israa Salim Katea
Lecturer Dr. Mohammed Natiq Abbas
Asst.Prof Dr. Shaima Khaled Abdul Qader

Committees

Prof. Mohammed Sh.Ahmed Al-Edanni

- MBChB, FICMS Ortho
- Dean of Al-Kindy College of Medicine, University of Baghdad.
- A Consultant orthopedic surgeon at Al-Kindy Teaching Hospital
- Director of Al-Kindy Iraqi Board for orthopedic surgery and observer in Al-Kindy Arabic Board for orthopedic surgery
- Professor at Al Kindy College of Medicine , University of Baghdad.
- Teaching
- Orthopedic and fractures for under graduate medical students
- Supervisor in Arabic Orthopedic Board for post graduate doctors
- Supervisor in Iraqi Orthopedic Board for post graduate doctors
- Vice President of the Iraqi Laser Scientists Society
- One of the founders of the Iraqi Society for Orthopedic Surgery
- More than 60 published articles in international journals
- Email mohammedshihab@kmc.uobaghdad.edu.iq
- dean@kmc.uobaghdad.kmc.edu.iq

Professor Dr. Mohammed Abdulmahdi Al-kurtas

M.B.Ch.B. degree , Al-Mustansyria university (1995-1996) , (Iraq)
 F.I.C.M.S. path. (Histo.& cytopathology) (2005-2006) , (Iraq).
 IFCAP (International fellow of the college of American pathologists) , (2022) , (USA).
 (Consultant Histo. & cytopathology)
 Academic degree : Professor
 Alkindy college of medicine / University of Baghdad. (Iraq) .
 E mail : mohammedquortas@kmc.uobaghdad.edu.iq

Professor Mohammed Jalal Hussein Al-Khalidi

-M.B.Ch.B. 86-87
 - Fellow of Iraqi Medical Specialization in Pediatrics.1995
 - MRCPCH (UK), 2005
 - Fellowship of Royal College of Pediatric and Child health UK (FRCPCH).
 -Consultant pediatrician 2008.
 More than 30 published articles in international journals
 Email; mohammedjalal@kmc.uobaghdad.edu.iq

Professor Dr. Mohammed Asaad Ibrahim Al-Bayaty

Specialization:
 Community medicine and family medicine
 Position: head of family and community medicine department
 Scientific Degree:
 Professor
 Work address;
 Baghdad University, department of community and family medicine, al-kindy college of medicine

Prof. Yasir Abbas Atea

1994 Bachelor of Pharmacy University of Baghdad
 2003 MSc Clinical Biochemistry
 2007 PhD Clinical Biochemistry
 2007 Lecturer at Al-Kindy college of medicine
 2013 Assistant Prof. Clinical Biochemistry
 2024 Head, Department of Biochemistry Al-Kindy College of Medicine
 2025 Prof. Clinical Biochemistry Al-Kindy college of Medicine
 University of Baghdad
 E mail : yasirabas@kmc.uobaghdad.edu.iq

International Speakers

Dr. Ali Kubba

UK

MB ChB FRCOG FFSRH is senior Consultant Gynecologist in sexual and reproductive healthcare and in colposcopy at Guy's and St Thomas' Hospitals, London. He is Honorary Senior Lecturer at Kings College, Department of Obstetrics and Gynecology, London, UK.

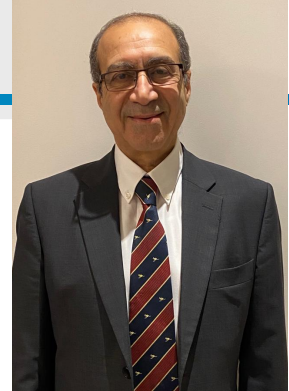

Ali Kubba is Honorary Professor at Basra School of Medicine, Iraq.

Ali Kubba is:

- past Chairman of the International Affairs Committee of the UK Faculty of Sexual and Reproductive Healthcare,
- immediate past Vice President of the European Society of Contraception and Reproductive Health and
- advisory board member of the European Society of Gynecology.

UK

Dr. Majeed Hameed Jawad

FRCP FRCPC DCH- UK-

Consultant Paediatrician at Surrey & Sussex Healthcare NHS Trust, and honorary Consultant Cardiologist at the Royal Brompton Hospital & Harefield, London, UK. Special clinical expertise is in cardiorespiratory diseases and safeguarding children.

On education level: I am a senior examiner for the MRCPCH & DCH and recognised tutor in Paediatrics. I was the chief examiner at the Royal College of Paediatrics and Child health, then the Principal Regional examiner for the Middle East & North Africa.

Presently Strategic Regional Advisor at the RCPCH for Training and Examination - MENA 2015-2025

I am a member of the International Board of Paediatric at the RCPCH and member of the Education and Training Executive- UK

Other NGO positions: Present Vice-president of the Iraqi Medical association (IMU, UK).

Dr. Mohammad Mahmud

UK

Is a Consultant Neurologist at the National Hospital for Neurology and Neurosurgery, University College London Hospitals NHS Foundation Trust, and a Clinical Lecturer at University College London (UCL). He has a specialist interest in vestibular neurology and medical education.

He graduated from Imperial College London in 2011 with distinctions and completed a BSc in Endocrinological Sciences with honours in 2008. He was awarded a competitive Academic Foundation Programme post and completed his Internal Medicine Training in North West London. He obtained the MRCP in 2013 and the Neurology Specialty Certificate Examination from RCP in 2019.

Dr Mahmud completed eight years of neurology training in London and Sussex as well as his doctoral studies in vestibular neuroscience at Imperial College London, where his research focused on vestibular modulation of postural control. He holds a Postgraduate Diploma in Medical Education from Imperial and is a Fellow of the Higher Education Academy (FHEA).

UK

Prof. Radwan Faraj

FRCOG

- Fellow of the Royal College of Obstetricians and Gynecologists, currently leads and co-founded Women's Health services at Al-Shaheen Medical Centre and IVF unit in Doha.
- Senior clinical lecturer- Sheffield University
- Clinical Professor-Qatar University
- Specializing in infertility treatment, assisted conception, pregnancy scanning, and gynecological conditions, laparoscopic and hysteroscopic surgeon
- Lead of the Early Pregnancy Assessment Unit (EPAU)- Rotherham Hospital and Honorary Senior Clinical Lecturer at the University of Sheffield, 2010-2022
- Medical director of Muscat; IVF unit where the first Oman IVF baby was born, 2003
- He boasts over 20 publications in reproductive medicine.
- An Associate Professor at the Faculty of Medicine, Qatar University,
- He holds accreditations as a Trainer in Pelvic Ultrasound by the British Fertility Society.
- Medical Education Lead/Undergraduate Tutor at the University of Sheffield.
- In research, Dr. Radwan leads in O&G, overseeing four trials from 2017 to 2022.
- Since 2013, he has been a RCOG committee member and examiner for Part 3 MRCOG.
- Medicolegal Expert, holding the position of GMC Medicolegal

Dr. Salwa Yasen

UK

MBChB, MRCP, DRCOG, DFFFP

I am a Mosul University graduate and I completed my specialty training in the UK. I am a practitioner in Family Medicine, working in Hant's Lane Clinic in the North West of England. I am clinical mentor and trainer to a large team of allied health professionals and medical students from Liverpool University. My area of keen interests are diet and nutrition, metabolic disease, dementia, and women's health. I am also part of the research team at Liverpool John Moore's University, working on the development of smart devices for dementia patients. In my free time, I love swimming, hiking, travelling, and spending time with family.

UK

Mr. Yousif M Aawsaj

Consultant robotic and laparoscopic general and colorectal surgeon and Endoscopist at Northumbria Healthcare NHS Foundation Trust (Prestigious no 1 among best 100 hospitals in the UK by HCPS).

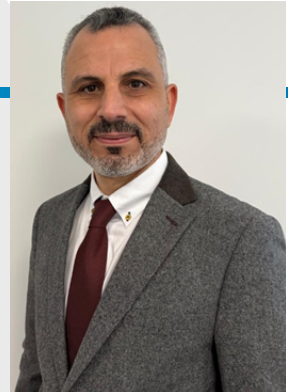

Royal College of Surgeons Robotic and advance colorectal surgery in Liverpool University Hospital 2023
Bachelor of Medicine and Bachelor of Surgery (MBChB) AL-Kindy College of Medicine/ University of Baghdad, Iraq (2005)

Member of Royal College Surgeon (MRCS), Edinburgh (2012)

Royal College of Surgeons Edinburgh (FRCS) (General Surgery) (2021)

Master of Sciences (MSc) Transfusion and Transplantation Sciences, University of Bristol, UK (2009)

Master Health professions Education (MHPE), Keele University (2022)

Workshop Title

Recent Advancements in Clinical Dermatology and Treatment

Time & Location

9:00 AM-10:30AM

Babylon Hotel Ishtar Hall

Workshop Leader

Dr. Galawish A Abdullah

Collaborators (Facilitator)

Dr. Mohammed Y Abbas

Summary

Background: Dermatology in practice and the advancements in medical dermatology.

What to expect: Bridging gap between theory and clinical skills.

What the participants will take away: Four sessions in dermatology including updated in facial augmentation and complications, upcoming treatment of hair disorder and the advancement in biological therapy for psoriasis treatment.

Learning objectives:

- Understanding emerging therapies and their clinical applications.
- Realize adverse effects which are associated with these.

Audience & Feedback and evaluation

Audience : Academic staff.

Evaluation sheath is available in the venue – Kindly we need your feedback.

Certificate: Will send by email / please be sure that we have your correct email address.

Workshop Title

Designing Fair and Future-Proof Assessments: Integrating Generative AI in Medical Education

Time & Location

9:00 AM-10:30AM

Babylon Hotel Furat Hall

Workshop Leader

Dr. Mohammad Mahmud

Dr Majeed Jawad

Summary

This interactive workshop will introduce educators to the evolving role of Generative AI (GenAI) in medical assessments. Using UCL's "Three Categories of GenAI Use" and structured through the ABC Learning Design framework, participants will explore practical and ethical approaches to designing assessments that acknowledge and appropriately integrate GenAI tools, while safeguarding academic integrity.

Background: Generative AI is rapidly transforming education, challenging traditional models of assessment. Educators must adapt assessment design to reflect this shift, maintaining fairness, relevance, and validity. UCL's framework provides a structured approach to understanding GenAI's place in assessment, while ABC Learning Design supports effective session planning. This workshop blends both models to support colleagues in developing context-sensitive, resilient assessments.

What to expect:

- Brief introduction to GenAI and its educational impact.
- Exploration of UCL's three GenAI assessment categories.
- Collaborative application using case studies.
- Group-based redesign of an assessment using ABC learning types.
- Peer feedback and discussion.

What the participants will take away:

- Clear understanding of how and when GenAI can be used in assessments.
- Experience applying UCL's GenAI assessment categories to real-world examples.
- A flexible framework for designing future-proof assessments.
- Practical strategies to adapt assessments without compromising standards.

Learning objectives:

By the end of the workshop, participants will be able to:

- Describe UCL's three categories of GenAI use in assessment
- Identify risks and opportunities in using GenAI in medical education
- Apply ABC Learning Design to structure assessments in a GenAI-informed context
- Redesign an assessment incorporating responsible GenAI integration
- Reflect on institutional policies and how to support staff and students in navigating GenAI

Audience & Feedback and evaluation

Audience : Academic staff.

Evaluation sheath is available in the venue – Kindly we need your feedback.

Certificate: Will send by email / please be sure that we have your correct email address.

Workshop Title

Current Challenges and Future Ambitions: Establishing the Obesity Excellence Centre and Implementing the Iraq Obesity Guideline"

Workshop Leader
Prof Dr Mohammed Hadad- UAE Virtually
Prof Dr Faris AbdulKareem
Dr Ali Imad

Collaborators (Facilitator): Prof Dr Faris AbdulKareem

Time & Location
11:00 AM -12:30PM
Babylon Hotel Furat Hall

Summary

Background:

Obesity is a chronic disease marked by excessive fat accumulation, leading to serious health risks like type 2 diabetes, heart disease, and certain cancers. It results from an imbalance between calorie intake and energy expenditure, influenced by genetic, environmental, and lifestyle factors. Psychological aspects such as stress and depression also contribute. Globally, obesity rates have risen sharply, with over 988 million adults affected. Effective management includes lifestyle changes, medical treatments, and sometimes surgery. Prevention focuses on healthy eating, regular exercise, and public awareness campaigns.

What to expect & What the participants will take away:

1. Insightful Presentations: Experts will share their knowledge on the current state of obesity in Iraq, highlighting challenges and opportunities for improvement.
2. Interactive Discussions: Participants will engage in discussions to explore innovative solutions and strategies for establishing the Obesity Excellence Centre.
3. Guideline Implementation: Detailed sessions on the Iraq Obesity Guideline, focusing on practical steps for effective implementation.
4. Networking Opportunities: Connect with healthcare professionals, policymakers, and stakeholders to foster collaboration and share best practices.
5. Future Ambitions: Visionary talks on the future of obesity treatment and research, aiming to inspire and motivate attendees.

What the participants will take away:

1. Enhanced Knowledge: A deeper understanding of the current challenges and future ambitions in addressing obesity in Iraq.
2. Practical Skills: Tools and strategies for implementing the Iraq Obesity Guideline effectively.
3. Collaborative Connections: Valuable networking opportunities with experts and stakeholders in the field.
4. Actionable Insights: Clear steps and plans for establishing the Obesity Excellence Centre.
5. Motivation and Inspiration: Renewed enthusiasm and commitment to combating obesity through innovative approaches.

Learning objectives:

1. Identify and discuss the current challenges in addressing obesity within Iraq, including socio-economic, cultural, and healthcare system barriers
2. Explore future ambitions for establishing an Obesity Excellence Centre, focusing on the latest advancements in obesity treatment, research, and patient care
3. Review and implement the Iraq Obesity Guideline, emphasizing evidence-based strategies for prevention, management, and treatment of obesity
4. Foster collaboration among healthcare professionals, policymakers, and stakeholders to create a comprehensive and sustainable approach to combating obesity in Iraq

Workshop Title

Update on Perinatal Mental Health and View on (Thinking Healthy) program.

Workshop Leader
Dr. Ali Saadi Salih

Collaborators (Facilitator): Dr. Noor Ali Hasan

Time & Location
11:00 AM-12:30PM

Babylon Hotel Ishtar Hall

Summary

Workshop aim to improve the attendance abilities in identifying and actively participate in managing post-natal depression. It includes view on perinatal mental health of the mother and use of Edinberg post-natal depression score to identify mother with depression symptom. Workshop include view on WHO program (THINKING HEALTHY) that support mothers with postpartum depression. The workshop included interactive activities, discussions, and role-playing scenarios.

Background:

Postpartum depression (PPD) is a significant mental health condition that affects approximately 10-20% of women after childbirth. It can manifest within the first few weeks following delivery, though it may also arise up to a year postpartum.

Despite its prevalence, PPD is frequently underdiagnosed and undertreated due to the stigma surrounding mental health issues and a lack of awareness among caregivers and healthcare providers.

Research indicates that untreated PPD can lead to negative outcomes such as impaired mother-infant bonding, developmental delays in infants, and increased stress within family relationships.

This workshop aims to equip participants with the knowledge and skills necessary to identify signs of postpartum depression effectively, facilitate open discussions about maternal mental health, and help connect mothers with the appropriate resources.

What to expect & What the participants will take away:

1. What to expect:

- 2.1- Will be able to use the EPND scale to identify and refer postpartum depression.
- 3.2- Will be able to manage and supervise WHO program (thinking healthy).

What the participants will take away:

- 1.1-EPND scale worksheet.
- 2.2-WHO thinking healthy flow chart manual.

Learning objectives:

- 1- To identify and describe the common symptoms of postpartum depression and differentiate them from typical postpartum adjustments.
- 2- To gain knowledge of standardized screening tools and methods that can be used to assess mothers for postpartum depression effectively.
- 3-To develop skills for initiating supportive conversations with new mothers, including how to approach sensitive topics related to mental health.
